THE BEAUTY OF LIGHT

Intercontinental / Tianjin

WHO WE ARE

LASVIT is a Czech-based designer and manufacturer of bespoke lighting and glass installations and objects. We create lighting and glassware collections in tandem with some of the world's most influential designers, as well as with up-and-coming talent. We are making the designers of the future.

The name LASVIT is composed of the Czech words for 'Love' and 'Light.'

Our mission is to bring beauty, happiness, and a piece of the Bohemian soul to clients worldwide, and thus change the world for the better.

SLS Lux / Miami

OUR ESSENCE

We are a young company, but we build on the centuries-old glassmaking tradition of northern Czechia. Back in 2007, we set our goal to become the most inspiring glassmakers in the world, and each of the past eleven years has taken us further on our journey. We have already brought the beauty of glass to hundreds of clients, and our work is featured all around the world, from Miami to Shanghai.

The respected know-how of Czech artisans had been handed down from generation to generation for over 1000 years. To get the magic just right, our glassmakers must grow up with their craft, and practice it their entire life. Our company follows the tradition of the Chřibská glassworks, which opened its gates in 1414.

The founder of LASVIT, Leon Jakimič, steers the company with the utmost respect for this tradition, but also with a boundless optimism for modern technologies and cutting-edge design. We keep pushing the frontiers of the possible in all that has to do with glass art works. Our engineers have developed innovative designs that do magic with light, letting it dance around to the sound of music, and play with all its diverse shades and colors.

BESPOKE INSTALLATIONS

We deliver beauty to each space. We make unique pieces, every time. We don't just provide light, we provide emotions and atmosphere. We tell stories through our glass art works. From A to Z, from the first hurried sketch drawn on paper, to the outstanding glass art piece and follow-up service, we deliver an experience beyond light.

Hundreds of people from different professions and specializations work together to beautify both private and public spaces across the entire world. And because each space is different, we cooperate with interior designers, developers, and our clients themselves to create a unique installation, "tailor-made" to their requests and to the atmosphere of the surrounding space.

GLASS FOR ARCHITECTURE

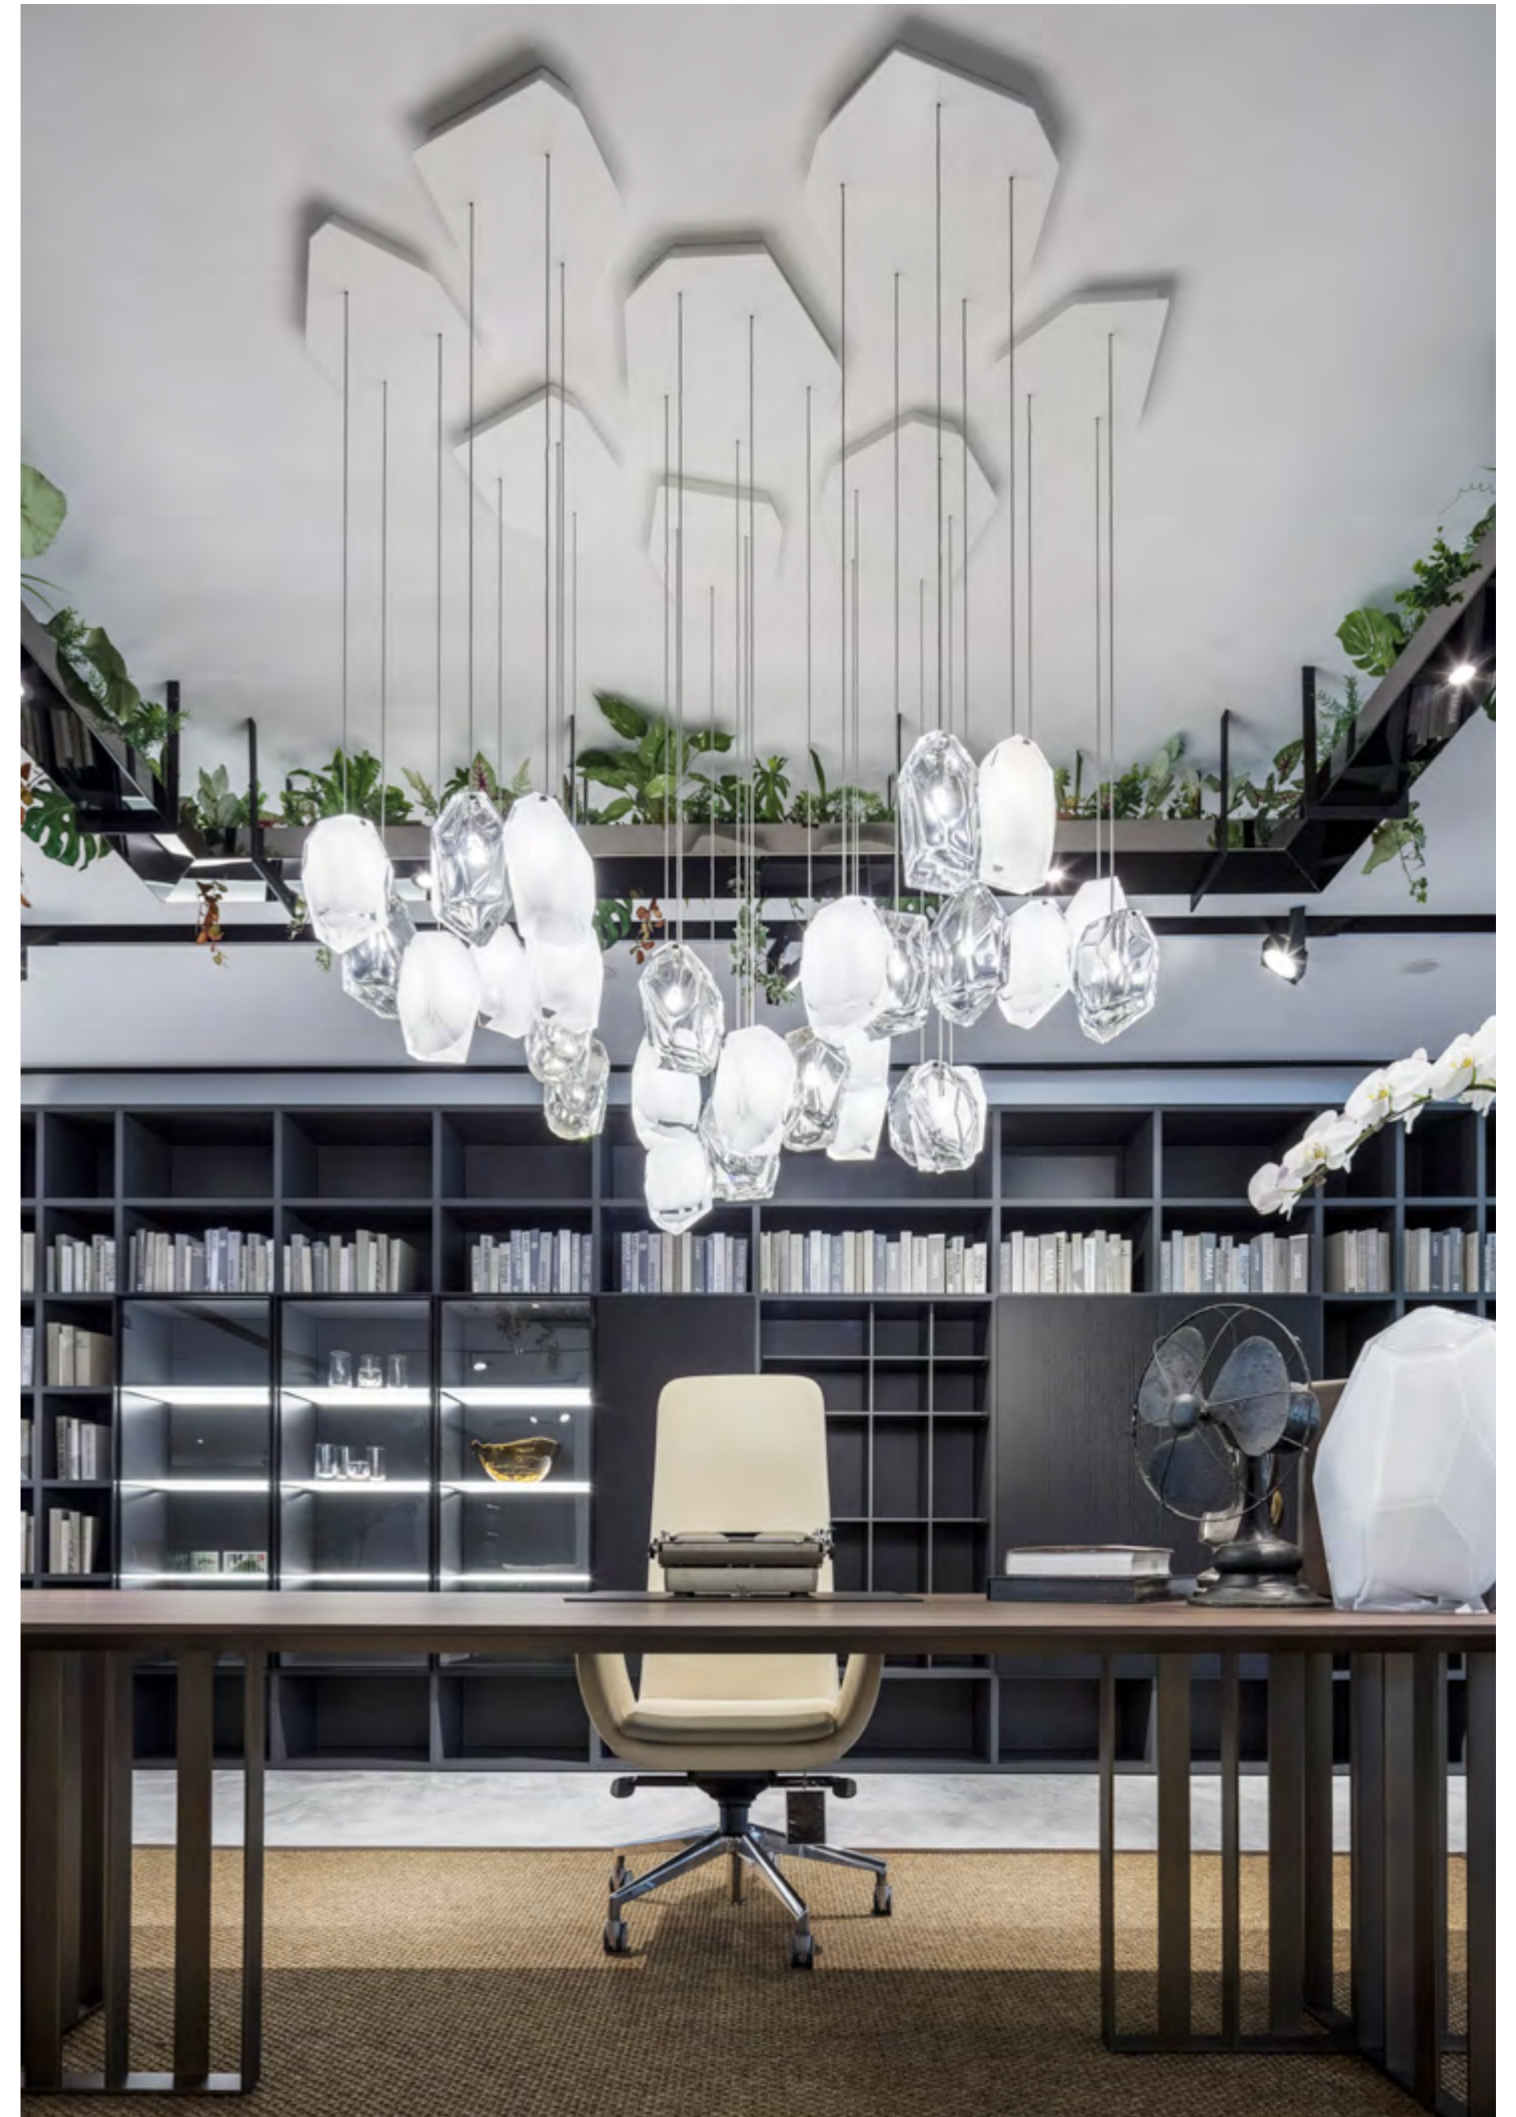

We have also transformed glass into modular systems for use in architecture. We build glass walls and partitions, as well as external building facades and curtain walls. Sometimes, we push the envelope even further — our latest enterprise is a glass house in Nový Bor, the proud headquarters and heart of LASVIT.

COLLECTIONS OF LIGHTING AND GLASSWARE

Throughout the past years, LASVIT has cooperated with many of today's design stars, and has become an influential company that is often the stepping stone for young and talented designers — the design stars of tomorrow. We discovered the talented Czech duo Jan Plecháč and Henry Wielgus, with whom we created design lighting Neverending Glory, and which has since become a bestseller of LASVIT lightings. Our original approach also won us the design "Oscar" at Salone del Mobile 2018. It was the launch of our glass "Monster Cabaret" that stole the show.
