LASVIT FOR PRIVATE RESIDENCES

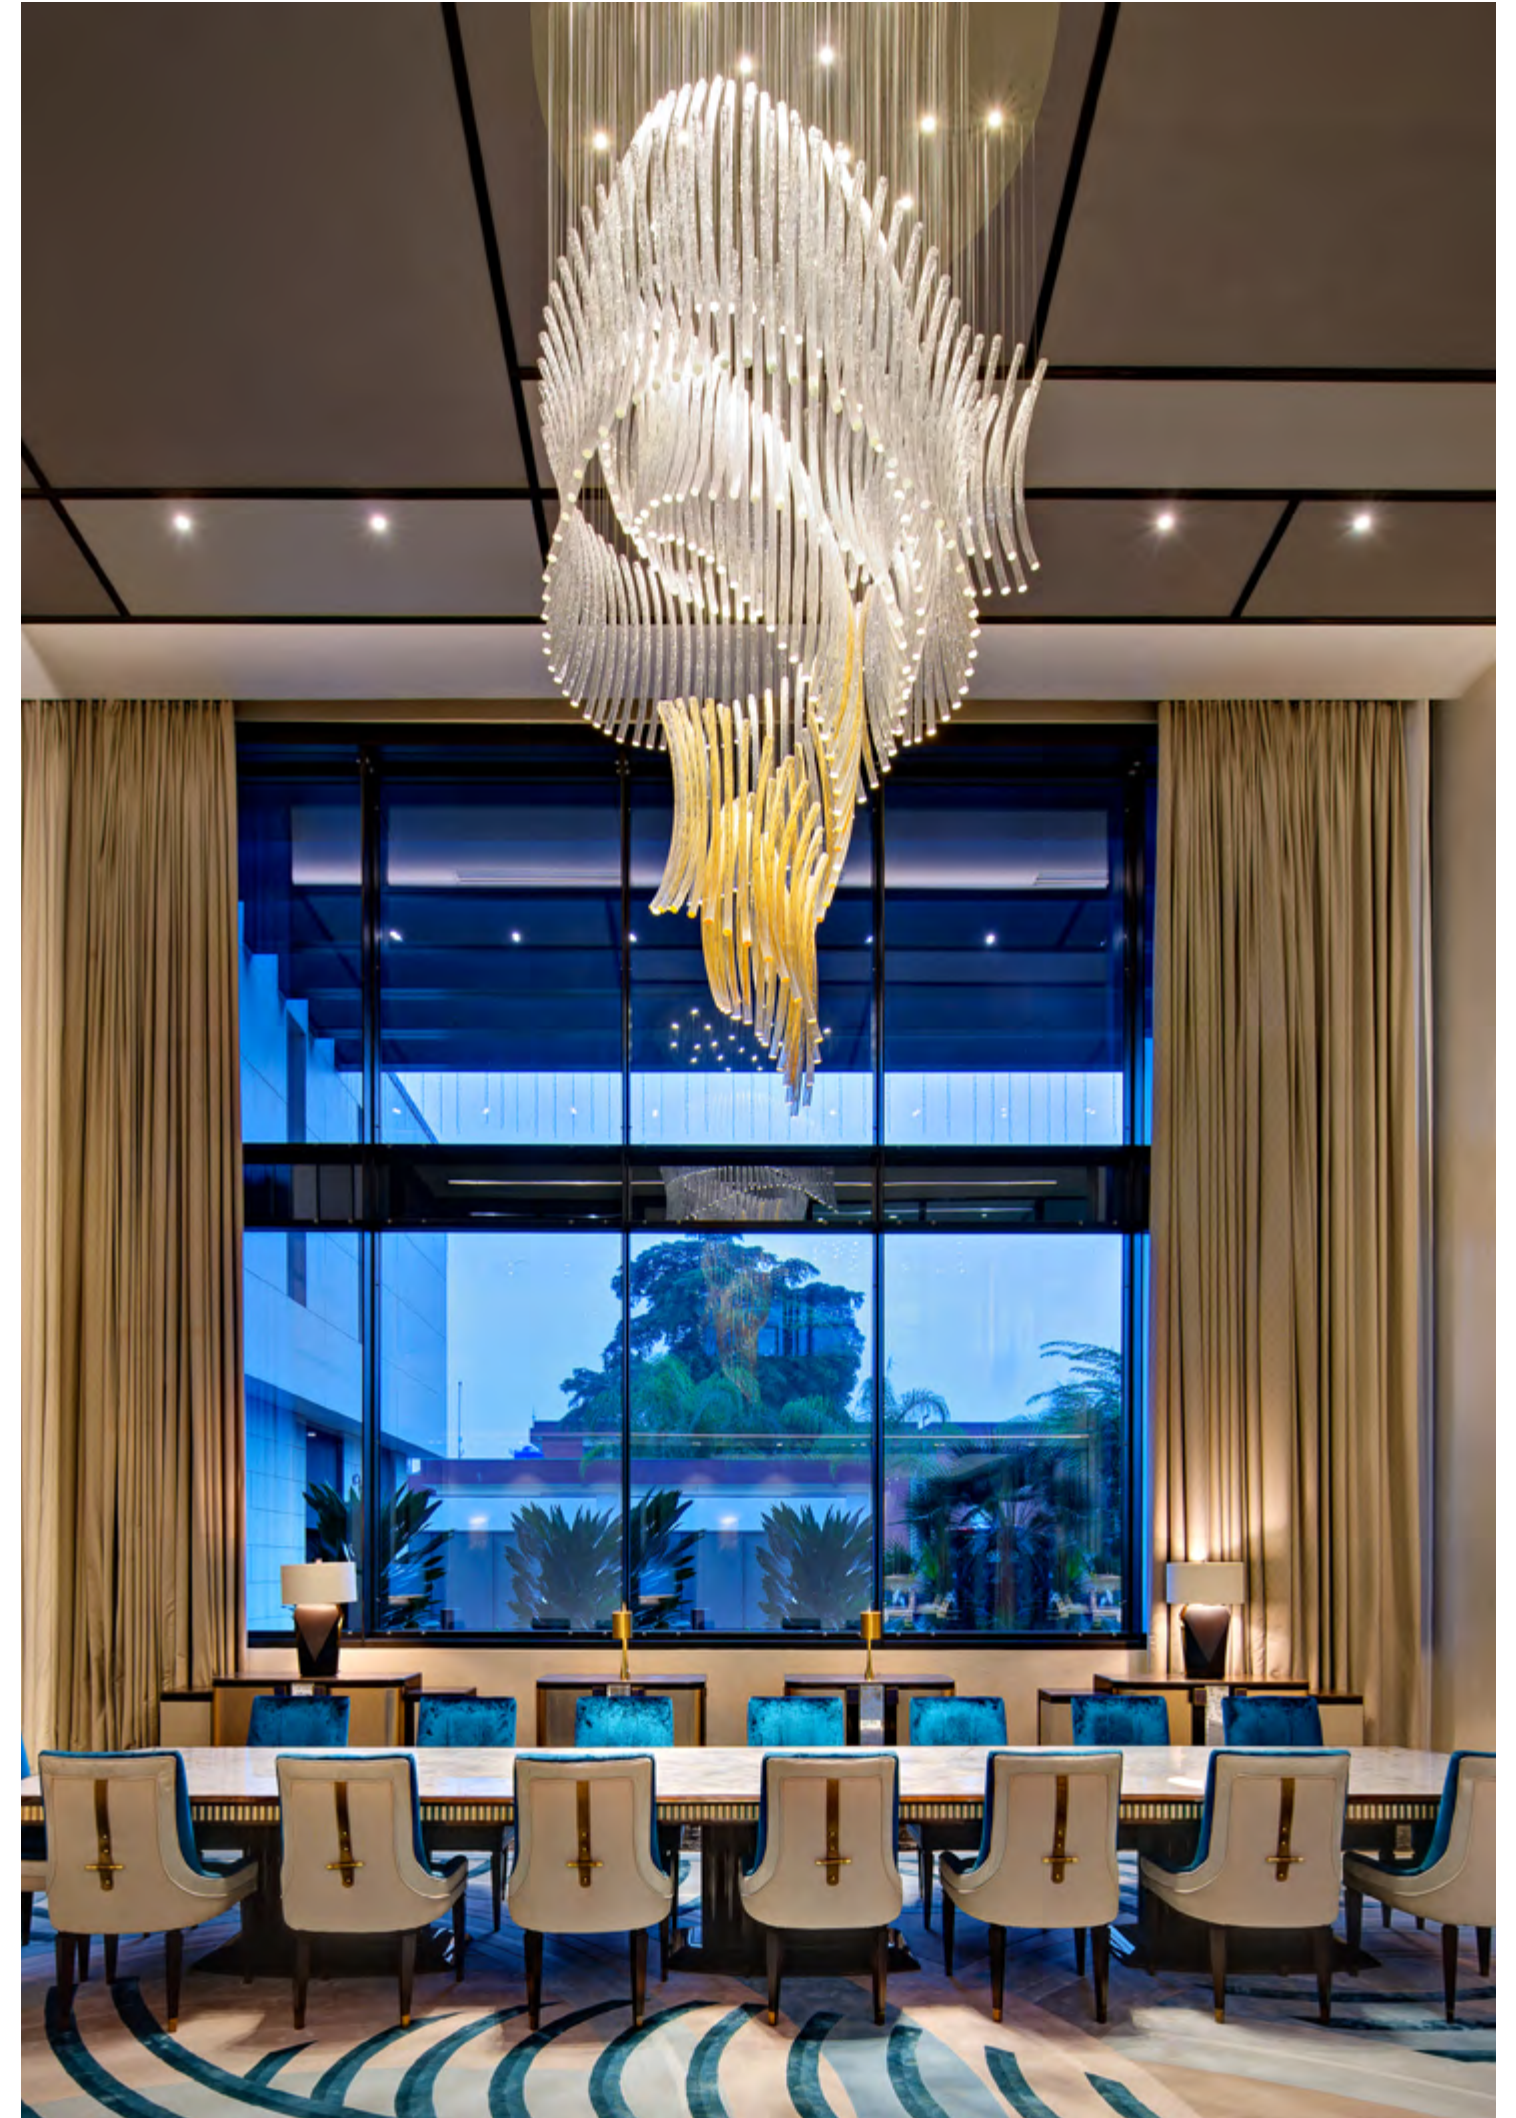

WHO WE ARE

LASVIT is a Czech-based designer and manufacturer of bespoke lighting and glass installations and objects. Design pieces from LASVIT inspire owners of private residences or yachts, visitors of institutional and commercial buildings, as well as clients of hotels and cruise ships all over the world. Our tailor-made lighting pieces are entangled with the genius loci of each specific site. They provide not only light, but also emotions, atmospheres and stories.

TRADITION IS A LEADER, NOT A DOGMA

The tradition of glassmaking in Northern Bohemia has been handed down through the generations for centuries. We have great respect for this tradition, but never let it bind us. Experience and know-how gave us the freedom to experiment on the cutting edge, play with designs and propose innovations. Our innovative designs can let the light dance to the sound of music or play in a myriad shades and colors. Our glass pieces are made to inspire.

BECOME THE CO-CREATOR, EXPRESS YOURSELF IN THE FIELD OF DESIGN

We believe that designing your own private space can tell a story — your story. We will guide you on the way to creating your very own lighting design. From the initial idea to the last hanging pendant, we will supervise every detail. Together, we can create a timeless, tailor-made piece, which will become your very own crystal heritage.

FAMILY MEMORIES WRITTEN IN GLASS

In this project, we worked closely with the owners to figure out the important features and stories they wanted to tell through the lighting installation. From the initial sketches to the last pieces of glass being anchored — we were there from A to Z.

FLOWERS ARE MUSIC FOR THE EYES

In front of the residence, there is a huge garden filled with flowers. The owners wanted this garden to be reflected in the hall. We created an installation made of 300 glass flowers, which are all hand-blown and hand-shaped... Five flowers are signed by the five children of the family.

**THREE PIECES,
THREE UNIQUE STORIES BEHIND GLASS**

Two other installations in the residence can be found in the dining room and the living room. Both designs are also based on the motif chosen along with the owners. In the dining room, there is an installation reminiscent of bubbles in champagne, while the living room is adorned with a light modeled on a necklace which the lady of the house once saw.

Together with the creative duo Yabu Pushelberg, we created the high-end designer lighting called CIPHER. It is so customizable, it's like a sandbox game you can play with — 10 crystal components, 4 metal finishes and 3 junctors. Create your very own design statement using this customizable system — create your very own design cipher.

THE MOST FASHIONABLE DESIGN STATEMENT

Czech top model and entrepreneur Karolína Kurková teamed up with LASVIT's art director Maxim Velčovský and stepped into the world of design. Together, they created the Dandelion lighting. The lighting received its name after the flower which grows almost everywhere in Karolína's homeland. The glass and metal flower is now blossoming in her home in Miami.
